Abstrak

ABSTRAK
Skripsi ini membahas mengenai pemanfaatan Perpustakaan Universitas Indonesia dalam menunjang proses penyusunan skripsi mahasiswa program studi Ilmu Perpustakaan angkatan 2008 hingga penyusunan tinjauan literatur. Proses penyusunan skripsi dalam penelitian ini terdiri atas empat tahap yaitu, menentukan topik dan judul penelitian, menuliskan latarbelakang, merumuskan masalah, dan memilih tinjauan literatur. Hasil Penelitian menyarankan bahwa, agar segala fasilitas yang ada terus dikembangkan sesuai dengan perkembangan jaman dan kebutuhan pemustaka, serta perawatan secara berkelanjutan dan teratur; buku yang telah dikembalikan di ruang sirkulasi dengan segera mungkin di-shelving untuk menghindari kekosongan di rak koleksi; dan pemustaka tidak diperkenankan meletakkan sendiri buku yang telah dipakai karena akan mengganggu proses temu kembali informasi.

Abstract

The focus of this study is the used of the Library of Universitas Indonesia in supporting the producing process of thesis until producing literature review, students of Library Science course of 2008. The producing process in this thesis is consists of four steps, determining the topic and title of the research, writing research background, formulate problems, and selecting the literature review. As research result that for all existing facilities continue to be developed in accordance with the changing times and needs users, as well as ongoing maintenance and regular; books that have been restored in the circulation as soon as possible to be shelving racks to avoid gaps in the collection; and not allowed users to put its own books that have been used because it would interfere with the process of information retrieval.
