

Detection of malingering during head injury litigation

Reynolds, Cecil R., editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410723&lokasi=lokal>

Abstrak

The second edition of *Detection of Malingering during Head Injury Litigation* offers the latest detection tools and techniques for veteran and novice alike. As in its initial incarnation, this practical revision demonstrates how to combine clinical expertise, carefully-gathered data, and the use of actuarial models as well as common sense in making sound evaluations and reducing ambiguous results. And, the book navigates the reader through the many caveats that come with the job, beginning with the scenario that an individual may be malingering despite having an actual brain injury.
