Abstrak

[ABSTRAK

Tesis ini membahas face negotiation yang terjadi antara generasi muda Batak sebagai keturunan perantau dengan generasi tua dalam usaha mempertahankan identitas budaya asal. Penelitian ini menggunakan teori face negotiation untuk membahas bagaimana konsep muka menyertai dua budaya berbeda dalam mengendalikan terjadinya konflik. Penelitian dilakukan dengan menggunakan paradigma konstruktivis, pendekatan kualitatif, menggunakan metode etnografi. Subjek penelitian dipilih melalui strategi purposive. Hasil penelitian menunjukkan berdasarkan pembagian cluster dalam teori face negotiation dapat digambarkan face orientation generasi muda Batak adalah both/mutual face, face movement yang diterapkan adalah jenis mutual face protection moves, face interaction strategis adalah mengedepankan high context, gaya konflik komunikasi yang sering terjadi adalah compromising, dan face content domain adalah reliability face yang mengedepankan kepercayaan.
